İstanbul, Gayrettepe 34349

We have been giving dance lessons at Academia Del Tango Istanbul school since 2018, performing tango performances at various dance festivals, concerts and special events, and giving workshops. We became Argentine Tango Türkiye champions in 2019 and 2022. We became the first and only Turkish couple to win the Tango Salon and Waltz categories at the European Tango Championship held in Italy in 2023. In the same year, we broke new ground in the history of Turkish tango by dancing at the World Championship 'Mundial de Tango' final held in Buenos Aires. We give workshops and perform live performances at dance festivals, concerts, invitations, music videos and other organizations at home and abroad. We produce content on tango shows, education, personal development, travel and tango life through our social media accounts, especially Instagram, YouTube and Facebook, and our blog page.

Our Tango Activities

We can participate in artistic events such as stage performances or workshops, tango seminars or special training programs, equipment, clothing and sponsorship collaborations, advertising campaigns and digital marketing projects, event organization partnerships, social responsibility projects, product or service development projects.
